Meeting Goals:

To increase our cultural sensitivity of the needs of victims as they struggle to get their basic housing needs met;

To review our progress so far and the next steps needed to accomplish our strategic plan for reducing domestic violence and sexual assault in Marin County. By working in small groups we will ensure plans are underway for the following: identify what's needed to enhance the capacity of our members to conduct screening and risk assessment for teen and adult victims; to activate a countywide referral network for child witnesses of domestic violence; to get current with the statewide efforts regarding policy review of diversion for offenders; to know what's needed to enhance the leadership capacity of our youth liaisons as we work together to prevent future abuse; to determine baseline data needed to evaluate the success of our efforts; to review the work being done by Marin County law enforcement jurisdictions to integrate best practices; to map the domestic violence, teen dating abuse and sexual assault resources in Marin County and identify and leverage underutilized assets.
